

International Network for Design and Applied Arts Education

LaSalle College Jakarta is dedicated to nurturing much-needed creative talents and empowering them to pursue their passions through design thinking education. This approach goes beyond visual aesthetics, focusing on the art of problem-solving by connecting the dots and synthesizing knowledge as the foundation for creation.

Established in 1997, LaSalle College Jakarta is a pioneer in industry-based design education. Its vision, combined with the international curriculum provided by the LaSalle College International Network, has shaped a unique and distinct approach to advancing Indonesia's creative sector. This foundation drives LaSalle College Jakarta's commitment to offering education that places professionalism, artistry, innovation, and entrepreneurship at the core of its learning processes.
