

BACHELOR PROGRAM

Interior Design

Producing forward thinking, human centered,
and contemporary designers.

**LaSalle College
Jakarta**

Sekolah Tinggi Desain LaSalle

Interior Design Program at LaSalle College Jakarta where practicality meets beauty. The program is designed to enable the students to explore the vast possibility of a space – the looks as well as the functionality of it.

In our Interior Design Program, students will learn how to connect human behavior, high-quality materials, and relevant design elements is essential. Not only to present an aesthetically pleasing space, but rather it is to create and enabling various experiences in the space through contemporary and human centered design. Putting emphasis on the influence of social & cultural issues as well as environmental impact.

All of these are being done through highly practical courses, advanced technology, and firsthand experiments on various materials. The students will also be getting access to the best minds in the industry through our high-profile guest lecturers and industry visits and collaborations.

Curriculum:

BACHELOR DEGREE IN INTERIOR DESIGN

Bachelor Degree in Interior Design is designed to give an expansive view of a living space. The aim of this program is to create a forward thinking designer that will be able to think critically and provide solutions in form contemporary design to answer some social, cultural, environmental and economic issues.

Started with fundamental knowledge on basic design elements as well as basic techniques in Interior Design. The program then continues to build understanding of the evolvments of visual art and interior design through the ages. The courses are also made to give more advanced training in the students' software skills.

On their later year, students students will be challenged to develop a comprehensive design of a space and take the first step into the industry through internship program as well as learning the work management system based on industry's best practices.
